

# Philips Smart HID Downlight Series

## Smart HID

Radiant, white, and bright CDM lamps provide dazzling illumination. Products from the Smart HID series are suitable for use with Philips 70 Watt CDM lamps (CDM-PAR30, CDM-T and CDM-TC). This full-range series delivers the perfect glow through CDM lamps matched with Philips gear, creating a complete lighting solution with ease.

### Product Features

#### Leading-edge technology creates a perfect experience

- The spring clamp structure provides greater flexibility in terms of adjustments, easily enabling a variety of projection angles. This allows for greater control, creating exquisite lighting effects.
- Made of die-cast aluminum with high-quality spray paint finish, this product suits most interior design styles.
- Overall height of the light fixture has been optimized to make it fit into smaller spaces, thinner ceilings and other specialised spaces.
- All the products are offered with Philips Electronic gear tray ensuring an easy to install, energy efficient solution

#### Ergonomically designed for easy application

- Proper Cabling and connector switches ensure a safe, convenient and cost effective solution
- Compact design enables deployment in scenarios where space is limited, allowing added flexibility in deployment.
- Numerous models available, easily put to use in all kinds of situations.

### Application Areas

- General illumination, accent lighting.
- Commercial venues, restaurants, public areas, etc.
