## General Description

In today's competitive retail scenario, it is important for all retail stores to create an inviting in-store ambience which draws customer footfalls and motivates people to spend. Keeping this in mind, Philips has developed the surface-mounted downlighters FCSI05 and MCS250 which are aesthetically designed cylindrical downlighters for PLC and CDM lamps respectively. The ambience created by these downlighters responds to the buyer's rational and emotional needs and contributes greatly to a store's appeal, while influencing the overall ambience, mood and aura across the store, which can help in enticing people to spend.

### FCSI05 - Surface mounted downlighter for 2 x PLC18W lamps

- Aesthetically designed downlighter with CRCA housing, suitable for 2 x PLC 18W lamps
- The luminaire is provided with high efficiency reflector for better light output
- Electronic ballast is provided with the luminaire

### MCS250 - Surface mounted downlighter for CDMTD 70W lamp

- Aesthetically designed downlighter with CRCA housing, suitable for CDMTD 70W lamp
- The luminaire is provided with high efficiency reflector for better light output along with a glass cover
- Electronics ballast is provided with the luminaire
